

What could I do with ...

Environmental and Land-based Studies

This subject will develop your knowledge, understanding and skills for working with animals, plants, food manufacture and land-use and recreation. It will also improve your:

- Ability to work independently
- Communication skills
- IT skills
- Industry awareness
- Number skills
- Organising skills
- Project skills
- Teamwork

These skills are important for Environmental and Land-based jobs and lots of other careers too

For some Environmental careers employers look for practical experience, you could get this by volunteering
